

learning zone.

Practice the exact PTE tasks you need each day. BEL helps you train WFD, RS, and RL with clear steps, simple feedback, and a daily routine you can follow in minutes.

WFD: Listen + Type

RS: Listen + Speak

RL: Notes + Retell

Adaptive difficulty (always the right challenge)

Pronunciation feedback (see exactly what to fix)

FSRS scheduling (remember vocab long-term)

PERSONALIZATION

Personalization you can see—without the settings.

Most apps give everyone the same drills. BEL watches your last 10 attempts and adjusts difficulty automatically so you're always training at the edge of your ability.

Measures Performance

Rolling Accuracy: Weighted average of your last 10 sets.

Attempts counts: Tracks consistency within your current level.

Fast Track: Streak of 98%+ triggers immediate promotion.

Stable Decisions

Promote: Move up after 85%+ consistency.

Support: Level down if accuracy drops below 60%.

Grace Period: 20-set stability buffer to prevent "bouncing."

Tunes the Knobs

Sentence Length: Passages grow longer as you improve.

Replay Budget: Limits replays to force active listening.

Masking & Delay: Reveals less help and adds listening locks.

These settings are applied automatically—no micromanagement required.

Promote: 85%+ accuracy

Support: < 60% accuracy

Stable: 20-set grace period

Fast Track: 98%+ 5 streak

See it in action

Not just a score—feedback you can act on.

Highlights the exact word that needs work

Explains why it sounds off—stress, vowel shape, timing

Shows progress across attempts so you can measure improvement

HOW IT WORKS

Three steps. Real improvement.

1

Listen

Train with short, realistic sentences—easy to repeat, hard to fake

2

Speak

Speak once. Get feedback instantly. Try again with a clear target.

3

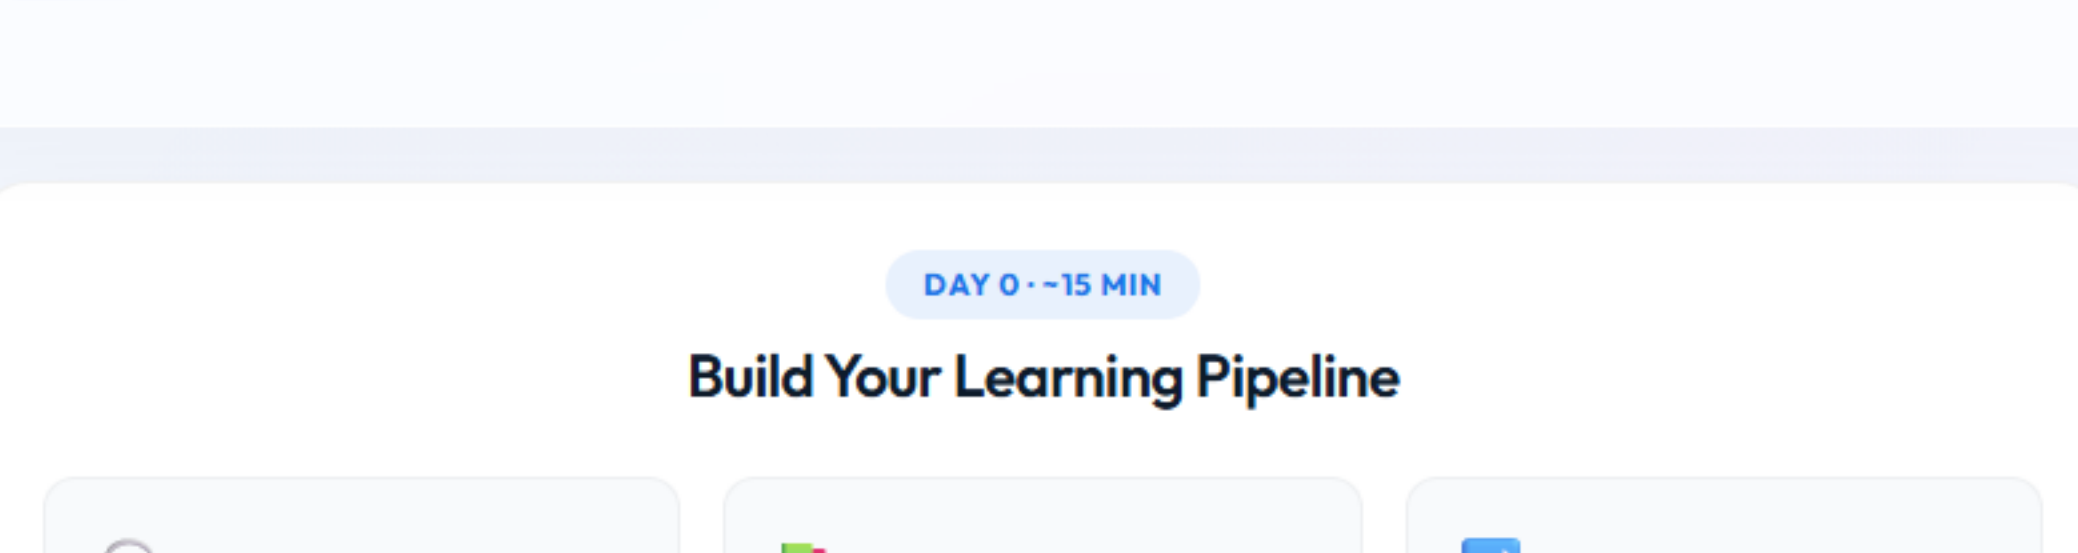

Review

Review at the right time—not random drills

YOUR JOURNEY

From first session to fluency.

Here's exactly what your first weeks look like — a clear path, not a maze.

DAY 0 • 0-15 MIN

Build Your Learning Pipeline

Practice Session

Do 3-5 questions in Type Mode. Use hints only when truly stuck.

Save Words

Save words you missed or want to remember in the Vocab Book.

SRS Review

Review until your "words due" reaches 0 for the first time.

Pro-tip: Completing your first SRS review on Day 0 is key to long-term success.

WHY BEL WORKS

Built for results, not points.

BEL is built for clear speech, accurate listening, and long-term retention—with tools serious learners use.

Auto-leveling A1–C2 that stays stable

BEL monitors your recent attempts and tunes the next set automatically—difficulty, hints, and replay rules—to keep you progressing without frustration.

- ✓ Adapts from accuracy + response time
- ✓ 85% promotion threshold for stability
- ✓ Fast Track rapid promotion for advanced learners

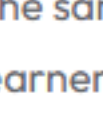

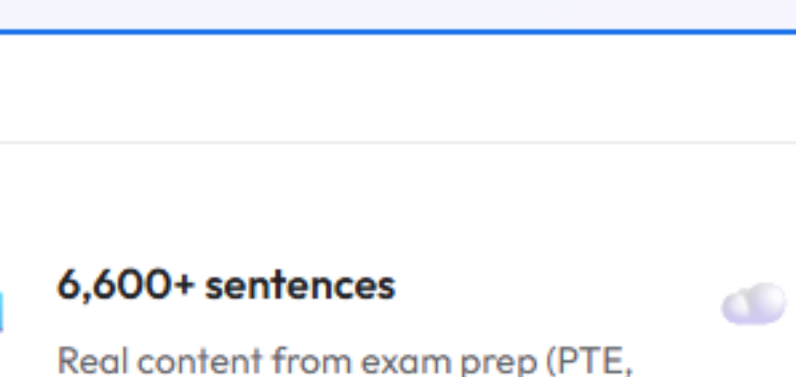

PERSONALIZED

AI COACHING

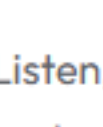

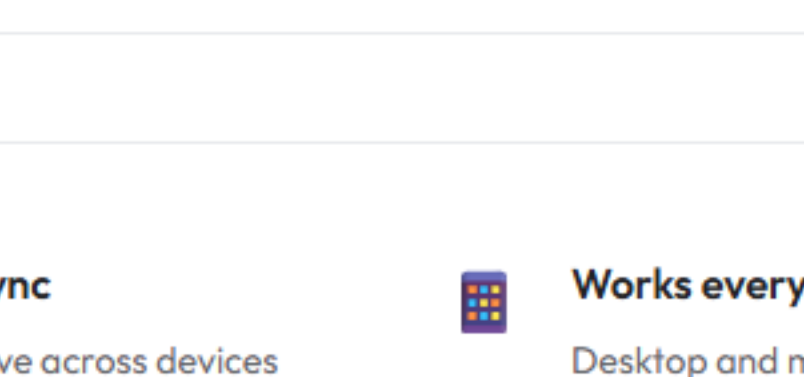

Pronunciation coaching that shows exactly what to fix

Powered by Praat acoustic analysis. See stress patterns, syllable timing, and word-level accuracy—not just a score.

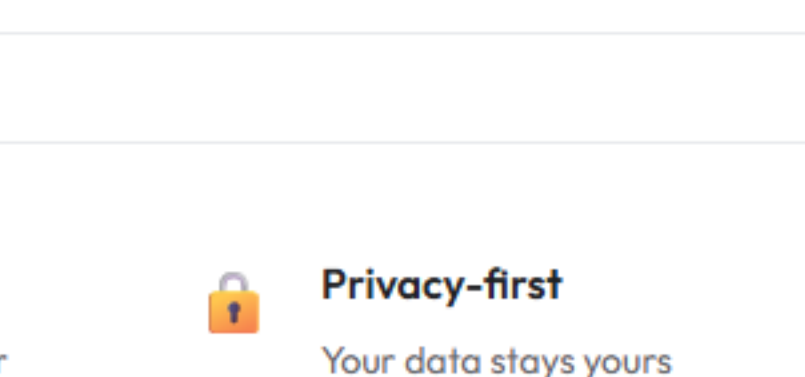

FSRS SRS for long-term retention

The same algorithm used by serious learners. Vocabulary reviews are scheduled at the optimal moment—not too soon, not too late.

Dictation that builds listening accuracy

Listen, type what you hear. Controlled replay limits and progressive hints keep you in the optimal challenge zone.

6,600+ sentences
Real content from exam prep (PTE, IELTS style)
